

# PRINTABLES GENIUS SHEET

**OUR PRINTABLES ARE TRIED AND TRUE AND  
BUILT BY PARENTS IN THE THICK OF RAISING KIDS.**

**We've kept them simple, so you can add your own personal tweaks, and tailor them to your life.**

**Life with kids is like a constant update, so print them out as many times as you need to change the plan. There's no need to squish in new info and cross old stuff out.**

## **Try these genius tips:**

1. Use different coloured pens for different kids if you need to combine everyone on a single chart. Consider following these colours through to everything else (lunchboxes, drink bottles, bags, name tags).
2. Print several at a time and staple/clip together so you have a fresh chart when needed, and you have the old one still there to refer to.
3. Laminate and use a wipeable pen if you need to tick or regularly add your own scribbles to the chart. Handy too for minor tweaks.
4. Establish a "family command centre" to stick up your printables. This way everyone knows where to find the info.

## **Different ways to display your charts:**

- Magnets on the fridge or magnetised board.
- Pegs on string or wire.
- Pins on a pin board.
- Velcro dots on a wall, fabric board, or a carpet square on the wall.
- Use picture frames on the wall and pop your charts into these.
- Think transportable, and slip charts into clear plastic folders and keep a neat stack on your command centre, office, or somewhere visible on the kitchen bench.
- Using a photo album, create a chart book. Make sure everyone can access it when they need to. Make your book look beautiful and easy to spot.

# SUMMER

## scavenger hunt

Getting outdoors and learning from the environment you're in is a great way to keep your brain active! Here's a fun scavenger hunt to keep children's minds moving this summer.
