

Petal perfection

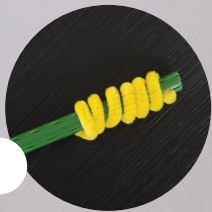

CRAFT A BUNCH OF BEAUTIFUL FLOWERS YOU CAN KEEP FOREVER!

YOU'LL NEED

- yellow pipe cleaners / chenille stems (for petals)
- brown pipe cleaners / chenille stems (for centres)
- green masking tape
- scissors
- hot glue

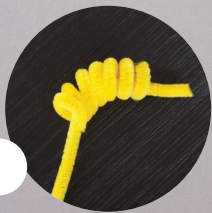

DIRECTIONS

1

Wrap a yellow pipe cleaner tightly around a stick, pencil or marker, then slide it off to make an even coil.

2

Thread a second yellow pipe cleaner straight through the middle of the coil.

3

Twist the two ends of the second yellow pipe cleaners together at the base to secure the coil.

4

Spread out the loops and gently shape them into evenly spaced petals.

5

Roll a brown pipe cleaner into a tight little circle and trim the end once it's the size you like.

6

Glue the brown circle into the centre of the flower.

7

Wrap masking tape down the stem (the straight yellow pipe cleaner) to make it smooth, sturdy and easy to hold.
